

Cambridge International Schools (Sudan)

OUR VISION

At Cambridge (Sudan), we believe in:

“Providing an excellent, active and safe learning environment for illimitable opportunities”

OUR MISSION STATEMENT

“Cambridge International Schools (Sudan) will provide an excellent, safe and supportive learning environment, which opens a variety of illimitable opportunities for each student to develop the knowledge and skills to become a responsible and successful citizen.”

Our VISION and MISSION are corroborated or supported by these four

CORE VALUES:

- i. Excellence:** we expect the very best of ourselves in everything we put our hands to. Excellence is our habit.
- ii. Respect:** we treat others as we would expect to be treated ourselves.
- iii. Courage:** we always do the right thing, not the easy thing. We are proud of our decisions.
- iv. Perseverance:** we pursue the difficult meaningful goal with rigour and passion.

This vision is the defining purpose of Cambridge International Schools (Sudan) and importantly highlights the **two** most **important** elements of **excellent schools**:

- 1.** Firstly, the unyielding pursuit of excellence during every “Pupil/Teacher Interaction”, starting with delivering lessons that are personalised and

tailor made for each pupil, but extends to everything we do for children at Cambridge International Schools (Sudan).

2. Secondly, the notion of “Illimitable” and the reminder for all adults to never limit opportunities for a child, but instead open a variety of challenging opportunities and set high expectations in all that we do.
 - ✓ The values of Cambridge International Schools (Sudan) will pervade or reflect every aspect of school life.
 - ✓ They will be celebrated in assemblies and be delivered in lessons and the wider curriculum.
 - ✓ The values will be the guiding principles for young people after they leave Cambridge International Schools (Sudan).

How will we achieve our vision and mission?

1. Positive, caring and clearly focused leadership from the senior leadership team.
2. The whole staff team working together to do its best for our children’s confidence.
3. The whole staff team having high expectations of our children’s social, behavioural and academic performance.
4. Well planned, exciting and challenging teaching that develops lively, enquiring and open minds in our children.
5. Creating stimulating and attractive learning environments in which our children can take a pride.
6. Fostering a calm, secure and purposeful working atmosphere that nurtures a positive esteem and self-image in all our children.
7. Promoting respect for other people and their property.
8. Working in partnership with parents, governors and the local community to enrich opportunities for our children.
